Atlatl Athletic Wear is a top of the line garment manufacturer with over 45 years of experience.

Our total commitment to Quality and Excellence is rapidly bringing us to the front scene of active wear in Mexico and we are ready to take our reputation beyond the borders.

Year after year we travel across the country visiting athletic events from a simple mother's day walk to the National Track & Field Championship and the Masters World Championship making notes of the athletes gear needs.

We are athletes ourselves and our children are athletes too!

We understand the needs of the runner and every sports enthusiast. And that is why we are making our life project to supply athletes with the best active wear available.
